National College Attainment Network	YMCA of the USA

Protect and Grow AmeriCorps

Voices for National Service empowers citizens to solve pressing community problems with unique local solutions by elevating AmeriCorps.

Founded in 2003, Voices for National Service has built strong bipartisan support for national service programs, which generate \$17 in benefits to the United States for every tax dollar invested. AmeriCorps annually enables 200,000 Americans to serve their country and community in public-private partnerships with local nonprofit, faith-based, and community organizations.

Drawing on the experience of its members, this field-led coalition has helped make national service more accessible to individuals and community-based organizations and increased the federal investment in AmeriCorps. Voices for National Service conducts a year-round calendar of activities, including outreach to public officials, events, research, and coordinated initiatives aimed at protecting and growing federal funding and public support for AmeriCorps. The coalition's work is supported by a Business Council, Champions Circle, and its membership organizations.

"Voices for National Service is absolutely critical to protecting and growing the federal investment in national service. During my time as the CEO of the federal agency that leads these programs, I personally witnessed leading members of Congress, governors, and mayors transition from having little knowledge of national service to becoming champion supporters. The work of Voices made this transformation happen."

Wendy Spencer, CEO of the Corporation for National and Community Service, 2012-2017

It's time to invest in national service and expand service opportunities throughout the country.

“From helping disadvantaged youth, responding to natural disasters, improving health services and much more, most Americans’ lives have been touched by those who selflessly donate their time and resources to serve for National Service organizations. Because of this, I understand the importance of championing and providing the resources for these programs to continue serving our communities and recruiting members.”

REPRESENTATIVE TOM COLE (R-OK)

“We need to stand together to expand service opportunities in America. Voices for National Service unites our movement in a single voice to achieve that goal and to enable organizations like FoodCorps to reach more students and communities.”

CURT ELLIS, CEO AND CO-FOUNDER OF FOODCORPS

“As Chair of the Senate Appropriations Subcommittee that oversees AmeriCorps, I fought hard to include robust funding in this year’s budget. I know this won’t be the last time that funding for these essential programs comes under the microscope and that’s where your work is so invaluable. Showing the impact, the tangible work that you all do in keeping our country running is what helps keep national service programs strong.”

SENATOR TAMMY BALDWIN (D-WI)

“No one does more to champion national service than Voices for National Service. They’re shaping policy, shifting perceptions, and showing what’s possible when service is a national priority. We’re proud to be a part of this coalition moving the field forward.”

ANEESH SOHONI, CEO OF TEACH FOR AMERICA

“AmeriCorps and Voices for National Service have transcended politics for over 30 years, receiving support from government officials on both sides of the aisle. There are so few things left in our country that can attract that kind of bipartisan support. It is not enough to admire AmeriCorps, to salute our young people who have stepped up to serve. We all need to play our part as engaged citizens to protect and grow AmeriCorps.”

JONATHAN LAVINE, CHAIR OF BAIN CAPITAL AND CO-CHAIR, VOICES FOR NATIONAL SERVICE CHAMPIONS CIRCLE

“Voices for National Service has been pivotal in the expansion of national service across our country, strengthening communities, and providing economic and educational opportunity for those who serve the nation and their communities.”

REPRESENTATIVE ROSA DELAURO (D-CT)
